

# Zoo Management System - UI Layouts

1. Login Page : Allows Admin or Staff to securely log in.

Explanation:

- Username & Password fields for credential input.
- Login button submits credentials.
- Reset clears fields.
- Optional password recovery link.

## 2. Admin Dashboard : Central hub for all admin operations.

### Admin Dashboard

Animal Records   Feeding Schedule   Health Updates   Enclosures   Staff Management   Logout

Total Animals  
**120**

Staff Members  
**15**

Feeding Today  
**45**

Health Alerts  
**3**

**⚠ Notifications / Alerts**

- Lion: Vaccination overdue
- Monkey: Enclosure cleaning due

Explanation:

- Menu for navigation.
- Quick Stats for overview.
- Notifications show urgent issues.

3. Staff Dashboard: Allows staff to manage daily tasks.

The screenshot displays the 'Staff Dashboard' interface. At the top, there is a navigation bar with four items: 'Feeding Schedule' (highlighted in blue), 'Health Updates', 'Animal Records', and 'Logout'. Below the navigation bar, there is a section titled 'Today's Tasks' containing three items: 'Feed Tigers at 10:00 AM', 'Check Elephant Health', and 'Clean Bird Enclosures'. Each task item has a small icon next to it. Below this section is another titled 'Notifications / Alerts' with the sub-item 'Pending Tasks'. A vertical orange line on the left side of the 'Notifications / Alerts' section serves as a visual separator.

Explanation:

- Shows daily tasks.
- Limited navigation for staff-only actions.

4. Animal Records Management: Store and view animal information.

## Animal Records Management

---

[+ Add New Animal](#)[Edit](#)[Delete](#)[Search](#)

ID	Name	Species	Age	Gender	Health Status	Enclosure
